

WSEI University

# PHYSIOTHERAPY

INNOVATIVE EDUCATION  
AND MODERN OFFER

## WHY IS IT WORTH CHOOSING THIS COURSE OF STUDY?

- A graduate of long-cycle Master's studies in the field of Physiotherapy will obtain the professional **title of Master in Physiotherapy**.
- By studying Physiotherapy, you will acquire the knowledge and the skills necessary to **diagnose musculoskeletal dysfunctions** and to **take action for health improvement and prevention**.
- During your studies, you will learn about the **anatomy of the human body in detail**, you will also learn about the **symptoms of many diseases** and how to use physiotherapy, e.g. exercises, massage, manual therapy, electrotherapy, laser therapy, or hydrotherapy.
- **Classes are conducted by doctors and physiotherapists** having many years of practical experience.
- Classes are held using the **University's modern infrastructure**, including the **Department of Anatomy** and the **Center of Medical Simulation**, which meet the high standards of 21st-century medicine (equipped with a 3D anatomical table, artificial patients, skeletons, and anatomical models).
- The training programme includes **1560 hours of practical placement**, which take place in renowned Lublin hospitals and rehabilitation clinics.
- Candidates with documented **professional experience** have the opportunity to submit documents confirming this experience during recruitment and applying for the recognition of their skills in the field of selected modules, including practical placements.
- Studies in **Polish and English**.
- **Partners:** Fizjokinezis Andrzej Kawęcki, Musi Lublin, NZOZ Sanus Jacek Madej, Revita Arkadiusz Sałbut, Provincial Occupational Medicine Centre in Lublin, Cardinal Stefan Wyszyński Provincial Hospital in Lublin, Provincial Specialist Hospital in Chełm, "Uzdrowisko Nałęczów" Rehabilitation Centre.
